Your July edition

Inside this month's issue: Flexible working, care home conundrums and saving the world one toilet at a time...

Customer story

Providing iPads to care homes with NHSX

Supporting NHSX saw us work around the clock to deploy 11,000 Apple iPads to care homes with limited access to technology across England, as we sought to do our bit in the country's efforts against coronavirus.

Spotlight

Jamf Pro, the silent office hero

Not heard of Jamf, our latest webinar co-hosts? Get ready to be amazed. As far as key pieces of software go, Jamf Pro is a bit of a Swiss army knife, making it easier to enforce security policies, enrol remote workers, manage devices and more – all while being Apple-native. Let's take a closer look...

Public Sector

We've added Pagabo to our framework partnerships!

We love the improved security and stability that purchasing frameworks offer our public sector and education customers, but there are often not too many Apple experts on the approved lists! Happily, we're now filling that role on half a dozen frameworks...

About us

Telling poverty to bog off

We're always looking for great charity initiatives, and toilet twinning – linking your loos to development projects overseas in order to fund sanitation projects – was a great idea brought to us by one of our colleagues. And for just £60, any business can help. Here's how...
